Your say

- Facebook group – needs to be utilised more
- A request has been received from a social care student. It was felt that inviting this student to join would aid inter-professional working.
- STP students in Wales and England were confused over entitlement of funding for training as it appears to be different between regions. NC stated that guidance for STP had been written and would be emailed to students affected.
- To chase up date for medical stretch
- Elections will take place during next meeting. NC to circulate the committee positions.

Ideas for future meetings

- The role of the dietician and hydration
- October meeting – getting to know you (speed dating format)
